[BY ASSOCIATED PRESS.]

Madison.—The trail of John L. Whitfield, alleged murderer of Duane, was followed by police to Milwaukee, Thursday, with definite information that a man, believed to be the fugitive, stopped at Oke, Columbia county, Wednesday morning, for gasoline and oil, and asked the way to the Wisconsin metropolis. Whitfield knows the haunts of Milwaukee and is believed by officials to be in hiding there.

The general storekeeper at Oke reported Thursday that a man answering the description of Whitfield stopped at his place at 4 a. m. Wednesday. He drove a large car, answered the description of the machine stolen in Madison shortly after the fugitive's escape from police.

### Asked Milwaukee Road.

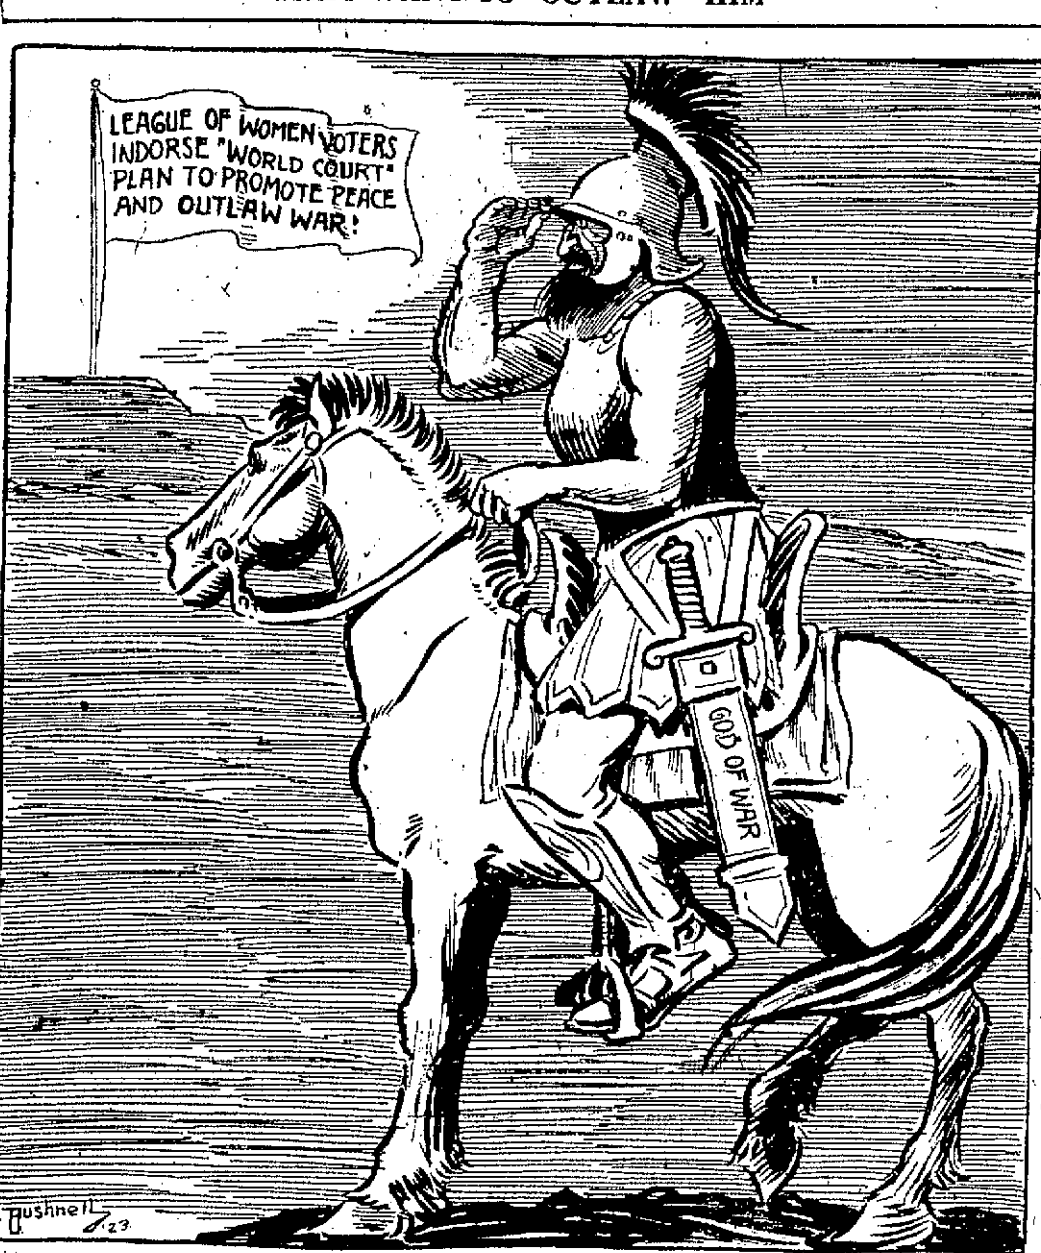

This dark man, hatless, as was Whitfield when he escaped, was said by the storekeeper to have asked the road to Milwaukee. When told that he had traveled too far north, he is reported to have doubled back to the Milwaukee road.

U. J. Williams, assistant district attorney of Cuyahoga county, O. Dr. C. J. Kilbane, special investigator, and R. A. Murphy of Cleveland, are here working on the case.

### PRESIDENT WILL STRESS RAILROAD ISSUE IN SPEECH

PENNSYLVANIA CONTROVERSY IS WATCHED WITH INTEREST.

Weakness Seen in Inability of Board to Compel Obedience.

By DAVID LAWRENCE, Copyright, 1928, Janesville Daily Gazette.

Washington.—President Harding is watching with more than passing interest the new phases of the controversy which has arisen between the Pennsylvania railroad and the United States railroad labor board. The president feels the transportation problem is one of the most important facing the country today and plans to devote an entire speech to it.

His Western trip, it is believed, will be an angle of the railroad question, have addressed to congress immediately after the country witnessed the ill-fated strike of a year and coal strike. The president is keenly alive to the fact that the insolvency of the western railroads is due in large part to agricultural problems, particularly the cotton boll weevil.

Months Fight Detention. The railroads have resisted wage increases on the grounds that labor costs have been high. Within the last few weeks important increases (Continued on Page 11)

### City Periled by Gasoline Blast

Birmingham, Ala.—One life was lost and for a time the entire community was threatened when an explosion and fire wrecked an 80,000 gallon tank of gasoline in the center of the plant of the Woodford Oil company at 2:30 a. m. Thursday.

Two million gallons of gasoline and crude oil were stored within 150 feet of the tank that exploded and for a time firemen held no hope that the blaze would be confined to the one tank.

At 4:15 firemen said the heat had been sufficiently assuaged to safeguard the other tanks which are within a few feet of one another and are connected by pipe lines.

Frank Williams, a negro worker, working on a pipe line leading to the tank that blew up, and within a few feet of it, was killed. First estimates of loss were placed at \$40,000.

Origin of the fire had not been determined, firemen said. They were investigating two reports, one that an electric spark might have caused the fire and the other that the workman might have been using a chain to cut a pipe.

### CHINESE TROOPS WITHDRAW FROM OUTLAW RETREAT

FALL BACK SIX MILES BEFORE MOUNTAIN STRONGHOLD. BANDITS PUZZLED

Cessation of Parley for Release of Captives Surprises Brigands.

Shanghai.—J. B. Powell, American newspaper publisher and prisoner, who has been held at Patanku, has been paroled to take part in the new conference for the release of the captives, according to advices.

Tientsin.—The Chinese government troops which had surrounded the Suichow train bandits and held the foreign captives in the Patanku mountain stronghold, have fallen back six miles, according to advices received from Lincheng.

The brigands' outposts are following the troops as they retire. The bandits, apparently, puzzled at the recent cessation of negotiations for the release of the captives, sent messengers to the relief workers at Lincheng demanding that newspapers be sent up to them.

The newspapers were sent, but the relief workers carefully deleted all matter pertaining to the kidnapping outrage.

### WORK OF RELEASE MIXED UP IN CHINESE POLITICS

Washington.—A delayed message from Minister Schurman in Peking, received Thursday by the state department, expressed Mr. Schurman's belief that the task of obtaining the release of American and other foreign captives held by Chinese bandits was now complicated by Chinese politics.

The minister said that "certain hostile factions" were using the bandit outrage to discredit the Chihli province government and to help the candidate for the presidency.

The message said it did not seem probable that the bandits would kill the foreign captives, but that there was danger that during the prolonged negotiations and compromise of some of the prisoners might die of exposure, starvation or disease.

### BRYAN WINS IN FOSDICK ACTION OVER DOCTRINES

PRESBYTERIANS DECIDE FUNDAMENTALS MUST HOLD.

### LIBERALS BEATEN

Committee Report Is Overturned by General Assembly of Church.

[BY ASSOCIATED PRESS.] Indianapolis, Ind.—Action of the general assembly of the Presbyterian church of the U. S. A., in adopting the resolution on the Dr. Harry Emerson Fosdick case, sponsored by the Fundamentalists and rejecting the recommendations supported by the Liberalist element, was being hailed today as the greatest victory of the convention, by the former group.

The fundamentalists, opposed to the liberal interpretation of the Bible, as expounded by Dr. Fosdick, succeeded in forcing the adoption of a report of the committee on bills and overtures which directs the New York Presbytery to require the preaching in the first Presbyterian Church of New York City, where Dr. Fosdick delivered his famous "Shall Fundamentalists Win?" sermon, to conform to the Presbyterian doctrine. "The committee in its majority report which the liberals sought to have adopted, rejected an overture from a Philadelphia Presbytery denouncing Fosdick and his teachings and recommended that the issue be deferred for another year."

William Jennings Bryan, who with two Philadelphia ministers, the Rev. Gordon A. McNeur and the Rev. Clarence E. McCartney, led the fight against the majority report, was highly elated at the result.

### 2 Murder Suspects Questioned

Janesville police are making every effort to locate John Leonard Whitfield, 200-pound mulatto, who escaped from Madison police, Tuesday night, while being taken to the police station to be held for the murder of Dennis Griffin, Cleveland policeman.

Chief Charles Newman's patrolmen, in two visits, Wednesday night, but both were released when their descriptions failed to tally with that of Whitfield. One was picked up along the east bank of the river above Goose Island and taken to the police station. Although he was a mulatto and about Whitfield's age, he was not as large as he. He weighed considerably less than 200. He has been here only a few days and told police he was on his way to Beloit.

The other suspect proved to be a full blooded negro and he was also discharged.

Every incoming train is being watched here and investigation is being made as to the whereabouts of Whitfield's description and the offering of \$1,000 reward for his arrest. A telegram was received here from the Wisconsin Motorists' association asking for the man's apprehension.

"Local police are of the opinion that Whitfield is still in Madison and may be wounded."

Washington.—A rat and a clam fought a battle within the confines of the national capital, Wednesday night, and so clamorous was the combat that the police were called to stop it.

It happened in an oyster house. A passing pedestrian heard the squeaking of the rat within the closed and darkened restaurant, and called the police that burglars were drilling a safe in the oyster house.

The police came on the double, but they found only the rat and the clam. The clam had a tail, hold on the rat.

### President Urges Rededication to Ideals of Nation

[BY ASSOCIATED PRESS.] Washington.—An appeal for a rededication of the American people to the aims and purposes of their government as set forth in the preamble of the constitution was made by President Harding today in an address at the opening session here of the National American Council, an organization recently formed to encourage better American citizenship.

Such a rededication, the president said, would furnish to the nation "a commanding and dominating national interest which, he said, had been lacking since the end of the world war. Quoting the preamble, Mr. Harding said it constituted "the complete statement of the nation's aspiration... the chart of our course... and the inspiration to every effort to make one and all of us better citizens."

While deploring the lack of a definite plan for the future, he said, he believed that the nation was in a position to make a new start.

Saturday, and in the meantime he retains his freedom on bail of \$1,000 fixed by Judge H. L. Mitchell when he was arraigned on a liquor possession charge, Wednesday afternoon. ### GAREY IN REVOLT AGAINST CAUCUS

LaFollette Meeting of Leaders "Not Regular," Senator's Claim.

[BY ASSOCIATED PRESS.] Madison.—The controversy with progressive republicans over taxation, which senators thought was settled Wednesday by agreement to introduce a new revenue measure, broke out Thursday with an announcement by Senator A. E. Garey, who is understood to represent Governor E. B. Taylor, that the Blaine tax bill will not be introduced in the senate.

He declared that five senators, all administration leaders not ready to support a new tax proposal, Senator Garey charged that the proceedings of the progressive caucus called by Robert M. LaFollette Jr., were not regular because of the vote held by two assemblymen, Speaker Dahl and C. E. Hanson. He claimed that these men should not have been allowed to participate in the conference. He still believes that the Blaine bill can be so amended as to be a good bill. Senator Garey said: "Four other senators, Staudenmayer, Heck, Kemp and Johnson, are ready to stand by me in this attitude."

Many senators see a hopeless muddle in the whole tax fight. Senator LaFollette said Thursday, he expected to see the senate vote over the question until August 1. Senator Henry Huber, chairman of the finance committee, announced he was prepared to do what he could to keep the legislature in session until a revenue bill is passed, if it takes until next January.

That lovely gleam olive oil gives your hair

The soft gleam that makes hair beautiful comes from the olive oil shampoo, hair specialists say. Science has found that olive oil keeps hair soft and pliant. Then hair gleams.

Olive oil in its simplest, most economical form for your shampoo, is PALMOLIVE SHAMPOO. It thoroughly cleans scalp and hair—removes dandruff. Leaves hair most amazingly soft and silky. No dull dryness and brittleness.

## HOPE TO PREVENT CEMENT CRACKING

Longitudinal Center Joint to be Tried Out on Evansville Road.

Ever notice those longitudinal cracks in the concrete highways which look like a snake had squirmed his way down the middle underneath the surface and caused the eruption?

It has been a source of much consideration of road builders, and County Highway Commissioner Charles E. Moore said Thursday that an experiment will be attempted on the Janesville-Evansville road to eliminate the cause, which, it is explained, is due to the moisture leaving the pavement, giving it a tendency to contract. When this develops, the cement naturally gives way at the weakest point.

Relying on this the crew will divide the road in the middle, forming a straight division, and then fill it up later with cement. This is recommended by the state highway commission, and is believed by Mr. Moore will result in elimination of the zig-zag cracks which are noticed in the Janesville-Beloit highway.

Good progress is being made by the county highway department crew now increased to 40, which is rapidly bringing closer the time when Evansville will be linked with the other cities of rock country by a solid band of 18-foot concrete.

About a mile and a half of road has been built since operations started early this month, and about the same distance remains before the machinery will be moved to the gravel pit and work will start on the stretch which will wind up in Evansville, completing the job. All together there is about four miles remaining to be built.

The J. W. Ryan and Sons grading crew is now doing rough work to within a mile of Evansville, at the corner where the detour route turns onto the regular route of No. 19 into Evansville.

### To Let Two More Jobs.

The Rock county highway department will let contracts for two more grading and surfacing jobs, Monday. One is the Beloit-Madison road which requires surfacing of 6,300 feet in Beloit township and 1,000 feet in the city of Beloit and which will complete the route to state highway 61.

Two and one-half miles of grading and surfacing is included in the other job which will be the connecting link of Orfordville with state trunk highway 61 in Adams county. The work is to be done at two places, the stretch intervening having previously been built.

James C. Schiller started construction this week of the Avalon-Clinton road, contract for which was let a week ago.

### Gazette Window

#### Pictures Show

#### World's Events

Events all over the world are shown vividly in pictures at the East Milwaukee street window of the Janesville Gazette building. Topics are timely and of as great a variety of subjects as there are pictures. These now on display show and tell of events in New York city, Cornwall, England; Rockland, Me. Paris, Rome, Easthampton, L. I. and location on the Mississippi river; Bolling Field, Wash., and the University of Pennsylvania.

There are many baseball pictures. One shows a crowd at New York honoring Deacon Scott for a 1,000 game record; another shows New York greeting Christy Mathewson and giving him a great ovation; and still another shows the Robins taking a 11-3 revenge on the Giants. Last week was boys' week especially observed in New York city with a parade of 100,000 boys, pictures of which are shown in the Gazette windows. World police chiefs recently met their and some of main ones are seen in another picture. Scenes of the University of Pennsylvania track meet are seen, and insects of some of the stars are given. Some world's records were broken. Six Liberty airplane planes recently made a 5,400 mile successful flight to Porto Rico and back; they are seen landing. Many here heard J. H. Fuchler, president of the American Bankers' association, when he addressed the Rock River Valley Schoolmasters' club at the Janesville high school and can now view him in an entirely different way in one of the pictures in the Gazette window, where he is seen on a kid-kar, together with other executives of midwestern fame.

Other photographs are timely and full of interest. They are replaced continually so that there are always new pictures up.

### Railroads Aid

#### to Kill Barbary

Janesville—Recruits are being added to the forces warring against the common barbary.

Recognizing the heavy loss to producers and millers of breadstuffs from rust spread by the barbary, a local milling company is offering, free of charge, to the barbary fighters of Wisconsin and 12 other grain growing states, chemicals which will eradicate the bush. A railroad company operating widely through the same states has offered to transport, without charge, the chemicals. The result of these plans were made at a recent conference of barbary eradication workers. Officials believe these offers will result in eradicating this pest, an eradication campaign for exceeding in proportions and effectiveness any which have been conducted.

The work in Wisconsin will be under the direction of Noel P. Thompson, in charge of field workers.

Wisconsin will use both common salt and sodium arsenate, which have been found very effective. The use of chemicals, which was first used extensively in Wisconsin last year, makes this co-operative campaign possible.

They are connecting her with some responsibility for his flight from Cleveland.

Alvin Karpis, proprietor of the restaurant in which Whitfield was captured, is claiming the reward offered for his arrest. He says the alleged murderer was taken through his efforts and that he was in no wise responsible for his later escape from the police officers.

## MILWAUKEE THINKS MULLATTO IS LOST

(BY ASSOCIATED PRESS.)

Milwaukee—John Leonard Whitfield, sought as the slayer of Patrolman Dennis Griffin at Cleveland, promised last night to out rival gunman Tommy O'Connor of Chicago in plausibility and in keeping the police of half a hundred cities and towns on their toes.

Since early morning the man hunt for the mulatto, who had decided the bullets of Madison policemen Tuesday night in his flight, was centered in Milwaukee, and last night several negroes suspected of knowing the whereabouts of the fugitive had been brought to central police station and grilled without results. Acting on latest reports from Madison, the police here were also looking for an automobile stolen from Madison about the time Whitfield disappeared.

Nation-wide Hunt. In the meantime Lieut. Charles O. Neville of the Cleveland detective department had visited Milwaukee and Racine and gone on to Madison to join Assistant County Prosecutor Henry S. Williams of Cleveland in collecting such evidence as might be had from Marie Price, 14 years old, who was taken with Whitfield before his spectacular escape.

Milwaukee police admitted that no results had been obtained from the grilling of several suspects here, but the belief prevailed that Whitfield

had come to Milwaukee, presumably enroute to Chicago, where the Price woman said he would find refuge with friends.

Sunday in Burlington.

From Racine came the word that Whitfield had passed Saturday, Sunday and Monday at Burlington, and that a Spanish woman answering the description of Miss Price had been with him. They were riding in a roadster and the mulatto displayed a big roll of money.

## HOPE OF FINDING NEGRO LOST BY MADISON POLICE

(BY ASSOCIATED PRESS.)

Madison—Any hope that Madison police had of re-capturing John L. Whitfield, enemy slayer of Dennis Griffin, Cleveland policeman, had been lost today after a 36 hour hunt failed to reveal as much as a trace of the fugitive. The same ability to escape detection has been shown by Whitfield as he displayed when, unarmed, he broke away from two armed Madison police Monday night.

The belief is still held that Whitfield has stolen a large automobile reported missing here, and has fled to Chicago.

To Chicago—John G. Kenning, assistant postmaster, who had been ill at his home, 703 Fourth avenue, for some weeks, is gaining and may return to his desk by June 1. He will spend the week end in Chicago.

## COMPANY M HAS JOYOUS REUNION

Mahoney and Holt Talks Are Features—Strampe New President.

Seventy-five members of Company M were united in a splendid spirit of camaraderie, Wednesday night, at the fourth annual banquet given in their honor by the Service Star Legion. Addresses, short talks, and musical numbers made up the program with Mahoney, Gertrude McKelvie, chairman, and Schmalzberg and Sadie Carman on the committee. Father William Mahoney's stirring talk was a feature.

Members of the Gold Star division, Mesdames Dorcas, and Mrs. Rutledge, Sadie Carman and Miss Edna Herrmann, acted on the reception committee, receiving the men at 7 p. m. in Eagles annex. One table was erected for the ex-soldiers while the entertainers occupied another. Red, white and blue streamers decorated the tables, the same color scheme being carried out in the hall where blue and apple blossoms were placed in the center of the tables. On the improvised altar was a basket of red and white carnations, presented by the Gold Star division, in memory of the deceased members of the company. The flowers were laid upon the altar by Mrs. Rutledge, Sadie Carman and Miss Edna Herrmann to Company M club, which in turn donated them to ex-service men who are at Mercy hospital.

**Propose Traffic Rules to Prevent Pupils Being Hit**

Chief of Police Charles Newman and Principal W. W. Brown are endeavoring to work out a traffic system at the new high school whereby pupils in being dismissed at noon and in the afternoon will cross South Main and Racine streets at certain points. As it is at present, the pupils swarm out of the building at noon and around 4 o'clock, crossing the streets at random, and as a result there have been several near accidents.

Many of them run across between blocks, apparently paying no attention to automobile traffic which, around noon, especially, is particularly heavy.

While the 1,150 students are to be asked to do their part by complying with the new regulations, the authorities say it is also up to the motorists to do theirs by driving slowly through the school grounds, and to the neighborhood of the school advising that cars be driven slowly.

The school is having the motorcycle patrolmen make two visits a day to the school at dismissal time, but he is practically helpless in regulating the 1,150 pupils over sidewalks.

**Forty Women at District Meeting**

Forty delegates from nine localities in this section are attending the first 1923 sessions of the Women's Foreign Missionary Society rally at the Methodist church, Thursday. Discussions were held all morning, and talks and special services were scheduled for the afternoon. Mrs. George Jacobs, president for this district, is presiding.

Belle, Elkhorn, Delavan, Janesville, Edgerton, Milton, Milton Junction, Orfordville and Sun Prairie were the places represented at noon. The entire afternoon was occupied with open discussions from the floor. Mrs. H. L. D. Adams was leader and brought out discussions of closer work with the mission.

Mrs. J. E. Lane was scheduled to be leader of the memorial services in the afternoon by which Mrs. Mary Clithero, who died last week, was memorial member of the organization, as she was a charter member of the first Methodist missionary society here 50 years ago.

Fanny Bewick is the only living charter member and she too was honored at the afternoon meeting.

Other speakers were the Rev. P. J. Turner, Janesville district superintendent, on "Operation through Cooperation," Mrs. Susie Lowell Hibbard, "Hastings-on-the-Hudson," who talks on "The World of Tomorrow," Mrs. Ella Dodd, Milton; Mrs. Lucy Dickenson, Edgerton; Mrs. E. Marston, Beloit; and Mrs. A. E. Schaub, Sun Prairie.

## Day Nursery Rooms Ready

The rooms that are to serve as permanent quarters for the day nursery are now ready for occupancy, the work of renovation and reconstruction having been completed Wednesday. The apartment is in the Salvation Army building across the hall from the quarters of the day nursery. The rooms have plenty of outside ventilation and the large front room will make an attractive play room.

The day nursery committee of the city federation of women will meet on the new quarters at 4 p. m. Friday. Plans for securing additional equipment will be discussed. Mrs. George Boyd, nursery matron, states that the increased attendance has created a need for three crib mattresses, six medium sized kindergarten chairs, dresser, chiffonier, and nursery plates. Articles needed to make the new quarters more attractive are nursery pictures and several small washable rugs for the floors. Clothing for babies is also needed.

The four weeks old baby for whom a home was sought, has been placed with an excellent family, and steps for legal adoption have been taken. From 10 to 12 children are now being cared for daily at the nursery.

## Varnish Causes Parsonage Blaze

A pot of varnish being heated on a gas stove in the basement of the United Brethren church parsonage, Prospect and Milton avenues, caught fire at 4:55 p. m. Wednesday, resulting in a call for the fire department. Damage of approximately \$10 was caused, the blaze partially destroying one of the first floor. The building was filled with smoke, and firemen were obliged to break a window to get entrance to the basement. It was five o'clock No. 126 of 1922, and the fifteenth one of this month.

## POSTPONE HEARING IN SHOOTING CASE

Delay Agreed to by Both Parties in Trial of Dr. Haney.

**[SPECIAL TO THIS GAZETTE.]**

Jefferson—Hearing in the trial of Dr. P. C. Haney, Watertown, health officer, for having shot and killed Daniel Donovan, 20, Watertown, was postponed until June 5 at 9 a. m., who hit came up before Justice of the Peace C. A. Bus, Thursday. Delay was taken with the consent of both parties.

It was early in the morning of Sunday, April 29, that Dr. Haney's wife saw a man's face at her bedroom window. Her screams awakened the doctor, who took an empty revolver, loaded it and fired through the side of the dining room window opposite to where the face was seen as the doctor was on his way outside to investigate.

When appearing as a voluntary witness at the coroner's inquest, Dr. Haney declared he tried to scare away the man for there had been rumors of a "Jack the Reeper." After shooting, Dr. Haney said, he went to the back door expecting to see a man running down the street. Instead, he found a body and notified the police at once.

Others testified at the time they had been annoyed by Donovan, and a 16-year old girl told how the youth had tried to catch her.

The case was about to be dropped when Governor Blaine, on request of the boy's widowed mother, ordered it to go to trial.

**Madison.**—The assembly again went on record as opposed to a state board of education Thursday, when it declined to endorse the Dahl bill, which it, in addition to its other duties, would absorb the functions of the state board of education. The bill was 51 to 39 and was taken after a motion for indefinite postponement, made by Assemblyman Sachtlein, of Madison, had lost 44 to 44.

## POLICE MOTORCYCLE HITS BUT 47 MILES

Having come back from the factory after a general overhauling a year ago and not used since, the police department's Henderson motorcycle would do only 47 miles an hour when tested out, Thursday, by Motorcycle Patrolman George Forier. Further work on it probably will be necessary to increase its speed. New tires have been purchased for it. It was decided to put the Henderson back in service when Forier's own machine began losing speed and he asked for a salary increase in order to take care of repairs and upkeep.

## COMPLETE NEW MAIN ON PLEASANT ST.

Two four-inch fire hydrants along this section of Pleasant street are being replaced with six-inch hydrants.

## 100 WAYS To Make Money

By BILLY WINNER

**If I Were a Grocer.**  
I would have a special crate of assorted canned fruit and vegetables which I would sell at quite a little reduction perhaps twice a month. Most women like to keep certain delicacies and "stand-by's" on hand. I would suggest always having one or two cans each of fish, meats, pimientos, soups, preserves, wafers and other essentials of a quick meal, for the "company shelf."

I wouldn't be satisfied with letting the women who came to my store regularly find out about this special bargain crate, but I would call special attention to it through a Janesville newspaper. The novelty of it would attract new customers to my store. Then it would be up to me to make them my regular customers.

## HOME BREW MATERIALS UNDER BAN

**Milwaukee.**—Home brewing in Milwaukee and elsewhere throughout Wisconsin received what appeared to be a blow Thursday when Roy A. Haynes, prohibition commissioner, notified every brewer in the state to cease immediately the manufacture and sale of products which can be used in the making of home brew. A large amount of products used in making beer in the homes in Wisconsin is turned out by breweries, according to Clark M. Perry, federal prohibition director.

With this source of supply cut off, home brewers will have to depend on malt products turned out by independent manufacturers.

### Dr. Ridgway for the Board of Control.

Henry Town resigned from the state board of  
control because it was plain that he was an odd  
number in that organization. While he has made  
no public utterance in the subject he was buried  
under the votes of Mrs. Elizabeth Keating and  
John Morrissey, the two persons on the board  
who are there to do the governor's bidding and  
make the board harmonious in all particulars with  
administrative desires. It is understood that Dr.  
Eldo T. Ridgway, senator from Elkhorn, is like-  
ly to succeed Mr. Town. It is therefore natural  
that conjecture should arise as to how he will  
fit into the scenery set by the two members who  
organized the board against Mr. Town. Mr.  
Town is conceded to be one of the leading men  
of the state in board work. He was warden of  
the Waupun penitentiary and, as head of that  
penal institution, achieved a reputation far wider  
than the boundaries of the state. It is more than  
a regrettable matter that he should have been  
put in a position where he thought it necessary to  
quit the board.

Dr. Ridgway has been counted as a La Follette  
man and a friend of the governor's legislative  
program though in the tax measures he has been  
arranged with the opponents of the Blaine bill.  
He represented Walworth and Rock county for  
the first session until changing the senatorial dis-  
trict threw him into another district with Ken-  
osha and Walworth. Much to the surprise of  
friends in his first session he was almost invari-  
ably lined up in support of La Follette and his  
group of legislators. That certainly is certainly  
in opposition to the wishes of a majority of his  
constituents. This session he has been more in-  
dependent and has frequently given support to  
conservative legislation or independently voted  
against some of the freak measures with which  
the legislature has been glutted. He has been  
quite the opposite of the senator which Rock  
county drew as a successor to Dr. Ridgway, and  
who certainly does not reflect the sentiment of  
his senatorial district now.

Dr. Ridgway has been interested in state in-  
stitutions and welfare matters and his appoint-  
ment would be one of the best made by the gov-  
ernor so far this year—if not the very best of all  
of them.

Mr. Bryan has left the Assembly at Indianap-  
olis free to hunt for the missing link.

### Who Runs the Legislature Anyway?

The people elected the members of the assem-  
bly and half of the senators who are sitting in  
legislative session at Madison, last fall. But who  
is the boss? Do they make legislation as rep-  
resentatives of the people or do they provide a sort  
of political Tony Sarg show of marionettes with  
staccato movements and jerky perambulation?

One of the big problems is taxation. How shall  
the revenue required to pay for state government  
and some added, frills and excursions into the  
experimental realms of political economy, be raised?  
Gov. Blaine has a bill, a queer jumble of words,  
phrases and politics. Senator Seyerson has a  
bill and so has Mr. John Dahl, speaker of the  
assembly. There has been more politics than  
economy in the taxation situation. But nearly  
every member had some idea as to what he would  
do.

At this point the members of the legislature  
were given to understand clearly that a marion-  
ette never has any volition except and save what  
the man who pulls the strings gives to him. So  
Mr. Robert D. Follette Jr., comes with greetings  
and messages from father in Washington, orders  
a caucus and in a moments puts the skids  
under the governor who is the putative head of  
the state government. In the palmy days of the  
Eleventh Story there was nothing quite to equal  
its open shamelessness. The members of the  
legislature, already sold to the senator, were at  
once convinced that whatever they had been  
thinking heretofore, was wrong. It must be a  
great satisfaction to Governor Blaine to be sitting  
lonely in his little sidshow while the crowd jams  
the big circus tent.

In the meantime it may be suggested that there  
is a lot of money wasted in salaries and expenses  
when legislation might be simplified by permit-  
ting one man to handle it.

Will some one kindly tell us what became of  
a man named Coue?

### Where Is the Socialist Party Going?

The socialist party is meeting in New York.  
Four years ago there were enrolled 118,000 mem-  
bers. There are now, according to their own fig-  
ures, some 13,000 members. They are trying to  
reorganize and want to raise \$30,000.

What has happened to the party? The element  
that made the socialists strong in numbers and  
sought office and won an election here and there,  
is no longer a part of the organization. These  
members have gone another way. They have  
hidden underground and are taken up wholly  
with the doctrines of Foster and Lenin. The  
methods of the socialists are too slow for them.  
The socialists are opposed to the soviet. The party  
calls upon the soviet government to release the  
35,000 Russian socialists held in prison in Russia.  
"Forward," says the Russian paper "Pravda."  
"Forward," looks on the Russian rubbish heap  
and chides his fellow members for their past

## Functions of Reserve Banks

By FREDERIC J. HASKIN

Washington.—D. R. Crissinger of Marion, O.,  
has just taken office as governor of the Federal  
Reserve Board, the body which stands at the  
head of the American monetary and banking sys-  
tem. During his administration of that office he  
hopes to settle the most fundamental question  
which now confronts the system, that is, whether  
the twelve Federal Reserve Banks actually shall  
be banks of reserve or active, operating banks.

The original theory of the Federal Reserve  
Act was that these twelve banks should occupy  
a position in relation to the credit of the country  
comparable to the position a fire engine occupies  
to the buildings of a community. It was the plan  
that the banks should come to the aid of the  
financial community in times of stress, and that,  
in the intervals, they should remain practically  
dormant.

The history of the Federal Reserve System has  
been an exciting one. The twelve banks opened  
in the autumn of 1914, not long after the Euro-  
pean war had broken out. The opening of the  
banks was in the midst of unparalleled disorder  
and excitement in the financial world. The New  
York Stock Exchange had been compelled to  
close because of the panic conditions and all over  
the world bankers and business men were in  
doubt as to what would happen.

The advent of the Federal Reserve Banks at  
such a time staided American business and  
doubtless went far toward preventing even more  
serious consequences than were apparent. The  
opening of the banks in such an emergency was  
a godsend to the country, but was unfortunate  
for the banks. The idea of Federal Re-  
serve Banks was new in this country and there  
have been better for them had they had an op-  
portunity to open in peaceful, normal times so  
they could have time to gain experience and  
equilibrium. Instead they were plunged instan-  
tly in the midst of the most extreme and abnor-  
mal conditions the country had ever seen.

Immediately the banks had to begin func-  
tioning at full speed. The demand of the member  
banks upon them caused them to begin their re-  
discounting operations at once. They became  
busy institutions overnight. A newly organized  
fire company should have an opportunity for  
practice drills and a chance to test its new equip-  
ment, but here was a case of one long fire that  
burned seven years.

Right through the war years and then in the  
period of business boom with subsequent depres-  
sion, these new banks had to operate at top  
speed. As fiscal agents of the government, they  
had to bear the brunt of the Liberty Bond dis-  
tribution and perform all manner of services for  
the banks. They had no respite until about a  
year or eighteen months ago when American busi-  
ness was finally settled back to something like nor-  
mal conditions, at least so far as banking and  
currency are concerned.

Here is where the rub came. In the first years  
of intense activity the new banks got into the  
habit of operating. They had no previous ex-  
perience to guide them. These abnormal opera-  
tions were the only basis they knew. Necessarily,  
they built up large staffs. The Federal Reserve  
Bank of New York alone has 3,000 employees.  
The large volume of emergency business they had  
been doing during these years brought in big  
earnings—many millions every year. This com-  
bination of circumstances led the officers of these  
banks to expect constant activity and big re-  
turns. No individual, of course, makes any profit  
out of a Federal Reserve Bank. The excess  
earnings are paid over to the government, but  
in time of big earnings they must be paid over  
in time of big losses they must be paid over.  
When the end of the period came,  
the attitude of mind could not instantly change  
nor could the big staffs be cut down rapidly, nor  
the big, expensive buildings be disposed of.

An example of just how this worked out is  
shown by two years of the operations of the Fed-  
eral Reserve Bank of New York. In 1921 this  
bank had net earnings of \$2,000,000. In 1922  
it had net earnings of \$2,000,000. In 1923 it had

# Bennett Playing With Badgers in Big Ten Tennis Meet

Copyright 1920, by Geo. McManus

## DECLARE MAROONS WILL TAKE TITLE AND BADGERS NEXT

(SPECIAL TO THE GAZETTE)  
Chicago.—Among the players representing universities in the western conference tennis meet at the University of Chicago, starting Thursday, is George Bennett, of Janesville. Bennett, one of the surprises this year of the Big Ten, is on the Wisconsin team.

Until the Badgers met Michigan early this week, Bennett had not lost a conference match. He has been knocking off every opponent with marvelous consistency until he has come to be regarded as ranking next to Fredwell of the Cardinal squad, St. Louis.

While Chicago is looked upon to copy the meet, in which every Big Ten institution and a few outsiders are entered, the Badgers must not be passed by as a possibility for a second or third place.

Bennett rose to prominence last year when he defeated Cornell in the consolation of the Wisconsin state meet at Milwaukee and captured first place in that division. In being eliminated from the running for the finals, he put up a sturdy fight that gave indications of his coming class.

George learned the game in Indiana.

## Ray to Attempt to Bust Record on Speed Track

(SPECIAL TO THE GAZETTE)

Indianapolis, Ind.—The evolution of speed from the early days of the motor to today's fastest racing cars will be demonstrated in a race at the Indianapolis motor speedway where the eleventh international 500-mile race will be held next Wednesday. If Tom Bek, assistant track coach at the University of Chicago, has his way, Bek trains Jole Ray, champion mile runner of the world, and he insists the fleet Jole can break the world's record for the mile on the bricks of the Indianapolis motor speedway.

The world's record for the mile is now held by Norman Taber, who negotiated the distance in 4:12 3-5 in the Harvard stadium. He was coached and trained by Edna O'Connor, now coach at Purdue university, and who will attend the 500-mile race.

Bek who has handled many world's record holders and has selected the most advantageous spots for the race, is confident that Ray and Bek, another of his charges, could break records on the Indianapolis track. He claims that the two and one-half mile oval would be an ideal spot because of the long straightaways.

He would send Bek in against the 1000 meter record of 2:23 1-5 held by A. E. Bolen, made in Sweden. Bek would bring along a contingent of fleet footed lads to pace his men into high speed. Track enthusiasts are desirous of having Bek's athletes run just before the start of the 500-mile race, and Bek has been in conference with W. C. Fox, Myers, general manager of the Indianapolis speedway. It is known that Myers would like to have the unusual feature as an added attraction at the big race of the human element involved. The whole plan is being threshed out—and if it is at all possible will be staged just before the race.

## Illini to Battle for Track Palm for Fourth Hold

(SPECIAL TO THE GAZETTE)

Urbana, Ill.—When the University of Illinois track team under Harry Gill won the Big Ten championship for the past three years, even their most optimistic supporters were resigned to a slackening up of this phenomenal pace.

"This will certainly be all," they conceded at the close of the 1922 season. Gill is losing his grip. He'll have to let the other fellows have the glory for awhile.

Yet the veteran coach built up a new team which has won five dual meets and by defeating Michigan and Wisconsin is the dual meet champion of the conference. He swept the platter with much ease at the Drake games. Now he is nursing his youngsters for a struggle to retain the championship at Ann Arbor on June 1 and 2. If the Illini triumph, it will be the eighth time in the 20 years which Gill has coached at Illinois that his squads have carried off the big meet honors.

Illinois' squad will consist of from 25 to 30 men and will be led by the Wolverine stronghold by Captain Paul C. Sweet, quartermaster, a native of Battle Creek, Mich. Sweet is a class runner. He was a member of the squad which established a new world's record in the quarter mile relay at Drake this year.

## Janesville Boys Will Put Forth Best at Tourney

When Janesville high sends its best track and field men to the state meet at Madison Saturday, they are expressed by the coaches that the public of the city do not expect to much of the lads.

This is the first season for Janesville's state Coach, Peltier, of the cinder path artists. Wednesday, "We are not hoping for too much and may not even place a lad, but the boys will do their best. They have not had much experience but are showing a fine willingness to get out and exert themselves for their school. They have worked faithfully."

Selection of the lads to represent the Blues is being made Thursday.

## Busy Man's Sport Page

By FRANK SINCLAIR

F. A. VALLE of England has just penned the following remark: "The wealth and social position of the United States of America lie in the country club. Golf is the country club." Without stopping to argue for or against Mr. John Bull's superficial remark of American life, aren't his words a challenge to the golf followers of the nation? It is true that golf was introduced on a large scale into America by men of wealth, for they were the only kind of people able to pay for it more than three decades ago. Mr. Valle says one of the most important things about golf is that "it is now a social cult."

IN THE SAME paragraph he declares the rise of golf has been due to its association with wealth. In all this Mr. Valle has overlooked the large number of municipal golf links that are rising in the United States. Until the game of golf passed beyond the country club stage and it became possible for busy business men to play it through the establishment of city-owned links, the game of golf did not become popular in this country. Ordinarily a "social cult"—whatever that is in England—is nothing but a gang of faddists that rise and fall with the tides of notions of Percival This or Archibald That.

GOLF is a game. That is why it has taken its hold in the United States, where "social cults" never get beyond the pink tea and extended little finger stage. Are the men who turned back the English at St. Andrews last Saturday in a wonderful showing of golf the products of a social cult? No! Social cults, as we know them, turn out saps and hollow-chested numskulls. A large number of the star golfers of the United States today rose from the ranks of the "social cult" if it ever would take in a caddy, particularly one like Gene Sarzen, who was born in poverty. The big difference between golf and a "social cult" is that golf grows as it becomes democratic while the "social cult" can live only where democracy is absent.

## May Have Parade for First Games of Amateur Loop

Plans are being laid for an elaborate opening for the city amateur industrial baseball league next Saturday afternoon. A parade, led by the Parker Pen band, is being planned.

Seven teams are definitely enrolled in the circuit. With but two days remaining before the loop opens, no word has been heard from the Chevrolets as to whether they will open. Meaning a team made up of milk carriers is anxiously applying for a berth, it was announced Thursday morning.

Gees are to be played on the fair grounds and the Chester diamond, on North Washington street. Later, the Samson diamond may be used.

An admission charge of 15 cents is to be made. This is to be used to defray expenses of baseballs and purchase of bases.

The fair grounds diamond is said to have been rolled down and scrambled in readiness for the opening contest.

## ENGLISH FIGHTING SHY OF ATTORNEYS

London.—The high cost of litigation in England continues to spell hard times for lawyers. People prefer to settle their disputes out of court before they find themselves up to the neck in costs, or submit their dispute to arbitration, and the lawyers get no sympathy in their financial troubles from the general public.

## PRESIDENT WILL STRESS RAILROAD ISSUE IN SPEECH

(Continued from Page 1)

have voluntarily been granted by some of the larger railroad systems in an effort to insure themselves industrial peace. The merger of lines into systems is under consideration by the interstate commerce commission. It is a measure to facilitate the interchange of freight cars, the economic use of terminals, and the consolidation of facilities. The menace of the situation always is suspension of service through strikes. The president realizes that both carriers and employees representatives have challenged and even ignored decision of the Railroad Labor board.

When Samuel Rea, president of the Pennsylvania railroad, two days ago declined to appear voluntarily as a witness before the labor board, he followed a precedent by some of the union leaders just before the shopmen's strike began a year ago. Mr. Rea reversed himself and decided to appear as a matter of courtesy to the labor board. He disclosed the fact that his original refusal was based on a feeling that Pennsylvania had no dispute before the board. This position grows out of a desire on the part of the Pennsylvania to deal with its own company organizations. The union men claim, however, that under the transportation act they can appeal to the board for consideration. It is a fact that any 100 men, whether they belong to the American Federation of Labor or a company union, or whether they have no organization at all, can petition the labor board to hear argument as to the equity of their wage agreements with the railroad by whom they are employed.

## ISLAND YOUNGSTERS FLEE FIRST MOVIE

London.—The first movie show ever witnessed by peasant children on the island of St. Kilda so frightened them that they stampeded from the school room where the film was being exhibited, and sought safety on the wild hillsides, says the correspondent of the Daily Express, who is touring the lonely islet that lies west of Scotland.

## HICKS HILL KILLED

Madison.—The state senate killed the Heck bill which would have permitted graduates of Marquette Law school to be admitted to the bar without examination. In the same manner that University of Wisconsin graduates are admitted.

that it had a right to determine for itself what representatives of the men it would recognize. The Pennsylvania had its own election, in which a minority of workers participated, and went ahead and made agreements with the minority. To the argument that only a minority voted, the answer was made that it was the business of the others to cast their ballots or else they are in the same position as any man who fails to vote in a state or municipal election—he is governed by the result just the same.

## Balked by Supreme Court.

This phase of the controversy would not have caused so much trouble, however, if the Pennsylvania had not gone a step further and insisted that the labor board couldn't get jurisdiction over a dispute unless it were jointly submitted by workers and employers. Obviously the company union formed more or less under the friendly auspices of the Pennsylvania, is satisfied with the agreements made and has no dispute. In that sense Mr. Rea's statement that the Pennsylvania has no dispute with the Brotherhood of Railway and Steamship Clerks is literally correct from his viewpoint. But the supreme court of the United States in its recent decision does not uphold that view. It says the very opposite and argues that such a construction would give either side an easy opportunity to defeat the operation of the act and prevent the labor board from considering any dispute. The supreme court said:

## Holding of Court.

"If the board has jurisdiction to hear representatives of the employees, it must of necessity have the power to determine who are proper representatives of the employees. That is a condition precedent to its effective exercise of jurisdiction at all. This must include the authority to determine who are proper representatives of the employees and to make reasonable rules for ascertaining the will of the employees in the matter."

The labor board must now find out whether or not Mr. Rea's organization of employees represents a majority of the workers. A special balloting process will have to be devised. There is no legal power to compel the Pennsylvania to agree to the decisions of the labor board.

## Can't Force Obedience.

The transportation act is as weak in that respect as it is in compelling the employees to obey. Mr. Harding's last utterance in this connection was: "Public interest demands that ample power shall be conferred on the labor tribunal, whether it is the

present board or the suggested substitutes, to require its rulings to be accepted by both parties to the disputed question." That's the trend of the president's mind and it will be the guiding principle in his handling of the problem this summer and before the next session of congress.

## TO ERECT SIGNS AT DANGER SPOTS

Bad Curves and Railroad Crossings Will Be Better Marked.

Danger signs for the protection of motorists will be put in place in Rock county within the next few weeks. County Highway Commissioner Charles E. Moore announced Wednesday when asked about the need for further warning signs at several spots.

Cedar posts on which the signs will be placed are now being erected on the state highways in the county by Charles Osgood, of the county highway department.

The state highway department has developed a system of warning signs which will be used solely throughout the state, to develop uniformity and make it less confusing to automobilists.

Railroad crossing signs which now tower eight feet in the air and are out of the line of vision of motorists will be lowered to four feet, Mr. Moore said, so they may be easily seen by day or night.

## CONFESSES TO MURDER

Fort Wayne, Ind.—Lawrence Gallovay, 20, arrested here, has confessed, police say, that he shot and instantly killed Marshal William Kemp of Millville, Mich., early Wednesday morning.

## GOOD ATTRACTIONS ON FOR WEEK-END

Good motion pictures are to be seen in every theater this week end, with the following some of the attractions:

"Hearts Aflame" ended at the Beverly, Wednesday night, after a great many people had seen it and found it to be a thrilling melodrama, and "Poor Men's Wives," a lavish sequel to "Rich Men's Wives," will be seen for three days starting Thursday night. It stars Barbara La Marr, and has other notable. Many beautiful scenes and elaborate costumes are presented. "Haunted Valley," the Ruth Roland serial, will be continued.

There will be one more night of "The Isle of Lost Ships" showing at the Apollo, and on Friday will open the week end vaudeville bill of four acts, and "Thelma," with Jane Novak. "Thelma" is a Scandinavian folk story brought up-to-date, and is taken from the same story by Marie Coralli. It is said to be quite a stupendous production, and is new.

"Kick in," which closed at the Apollo, Wednesday night, found much favor. Bert Lytell, Betty Compson, May McAvoy, Garret Hughes and Walter Long make a cast that would make any picture good. The Fox-Town production, "Turn to the Right," taken from the famous stage play, and starring Alice Terry, will be seen there tonight, while other attractions for the week end are "Single Handed," Root Gibson, Friday; and "O'Malley, of the Mounted," William S. Hart, Saturday. The Thursday and Saturday pictures are second-runs.

## Lions Hear Talks By Chevrolet Men

"Janesville has a spirit of positiveness regarding the Chevrolet plant, born of its past industrial experience," said A. F. Young, sales manager of the Chevrolet Motors plant here, addressing 35 or more Lions in his office Wednesday afternoon, following a tour the club made through the plant after the weekly luncheon. "This is a spirit that everybody in the city should unite to cultivate, because the Chevrolet industry in Janesville has just started. The plant here is a mere infant to what it will be. It is permanent and will grow. You may have no worry about that."

"Janesville's past experience rather has put her in the dumps, but it can truthfully be said that her experience was in nowise different than that of a great many other even larger cities. Flint had the same, or even a worse experience, but has forgotten the years of 1920 and 1921 and is now living for the future. Janesville, however, seems to be unable, so far, to forget the past."

W. E. Moody, superintendent of inspection, had charge of the program, and he and G. J. Gates, assistant sales manager, gave brief talks following the luncheon. Then the club, almost every member present, inspected the plant from start to finish. They were particularly impressed with the new welcome sign above the main entrance which greeted them with a "Welcome, Lions." Following the inspection, Mr. Young talked.

## DEATH WARRANT OF BOARD IS SIGNED

Blaine Attaches O. K. to Gary Bill Abolishing Education Body.

(By Associated Press.)  
Madison.—Governor Blaine Thursday signed the Gary bill abolishing the present state board of education. Under provisions of the new law the board ends its functions July 1.

This terminates a fight precipitated by the governor when, in a special message to the legislature, he urged abolition of the education board as an unnecessary expense. The bill went through the senate with little opposition, but was hard fought in the assembly.

Dr. E. A. Fitzpatrick, secretary of the board since 1913, will leave the state service July 1, as a result of the governor's signature. It is expected the duties of the office in administration of the school's education bonus law will be transferred to the assistant general's office or to the office of the superintendent of public instruction.

This is the first state department abolished in years, according to legislators.

**County Doctors to Banquet Here**  
Dr. Milton M. Portis, Chicago, will be the speaker at the May meeting of the Rock County Medical society.

## SEEK COMPROMISE ON DRAINAGE BILL

State Affairs Committee Draws Up Substitute for Measure.

(By Associated Press.)  
Madison.—In an effort at compromise, the state affairs committee of the senate has drawn a substitute bill to the measure introduced in the assembly by Clinton Price, repealing the entire drainage law. This bill passed the lower house.

The most important changes in the present district drainage law included the following:

1. Adding the commissioner of agriculture to the drainage commission which must pass upon the feasibility and desirability of the drainage district.

2. Provision that an adverse vote by any member of the board shall prevent the presentation of the petition for creation of a drainage district.

3. That included in the prospectus for the drainage district to be placed before the state officials must be a statement of the immediate use to which the land in the district is to be devoted after the district is established and the ditches established.

4. That where the district is more than 5,000 acres and the counties in which it is located have a population of less than 50 to the square mile that the plans for the district must be submitted to and passed upon by the county boards of the

county in which the district is to be located.

5. Providing that no signer of the petition can represent more than 320 acres of land in computing whether there is a majority of the land owners in the district endorsing the petition for its establishment.

Inspections at stated intervals by the engineer of the drainage department of the university during construction of the drainage ditch and a report to the circuit court on the project.
